

## MAINTENANCE RECORD APPENDIX FOR AD 2024-04-02

Applicable to Model R66 helicopters with P/N F029-1 tail rotor blades serial number (S/N) 3099 inclusive and prior, installed.

MODEL	REGISTRATION NO.	HELICOPTER SERIAL NO.	TAIL ROTOR BLADE PART NO.
-------	------------------	-----------------------	---------------------------

Per AD 2024-04-02, Amendment 39-22681 effective 02 April 2024, paragraph (g)(1), I have visually checked both tail rotor blades' tip cap area for an exposed tip cap bond line or bubbled paint. (This check must be performed prior to the first flight of each day and may be performed by the owner/operator (pilot) holding at least a private pilot certificate. If tail rotor blade tip cap area shows evidence of corrosion, an exposed bond line, or bubbled paint, remove all of the corrosion, before further flight.)

[illegible]

This record must be maintained as required by 14 CFR 91.417, 121.380, or 135.439.
